AT HOME

It's that time of year again. Fashion insiders peer into their crystal balls to predict the fashion trends of the season. Some will be hot and some will not, but quite a few encompass your furnishings as well as your wardrobe. • Curvy and sleek - just like you in this Nicole Miller Studio One Dress. • "Cracked Ice"

Dining Chair. • You'll feel like a movie star walking this red carpet, "Sutra" from Atelier Lapchi.
